A Cross−cohort ABMR mechanism−module atlas

Scores are standardized within cohort; positive values favor the first group

DSA+ ABMR vs DSA− non−rejection
DSA+ ABMR vs DSA+ non−rejection
DSA+ non−rejection vs DSA− non−rejection
ABMR vs non−rejection (validation)
ABMR vs TCMR (specificity)
Felzartamab DeltaDelta at week 24
Felzartamab DeltaDelta at week 52

NK identity
FCGR3A/Fc signaling
Cytotoxicity
IFN−gamma/chemokines
Endothelial identity
Endothelial activation
Tissue injury/repair
T−cell control
Monocyte control
